VICTORY FOR THE CHILDREN.

The gates are unbarred! The children will not be longer exposed to the annovance and sufferings caused by waiting at the school-gates on dark, wet mornings, or when the air was cold or filled with snow. They will come from their homes, and when

they arrive at the school they may pass in. In their name, thanks! There should be no sense of gratitude for a right conceded, especially when it has been withheld for long, and is granted in great measure through the constraining force of moral coercion. But as the poor children trooping in at the gate rise before the mind, in place of the pitiful picture of the ill-clad, shivering little creatures huddling (orlornly about the barred entrance, it seems pardonable to murmur one's thanks to the School Commissioners, at least in their name.

It was a hard fight. THE EVENING WonLD need not recall the firm, earnest of its indignant and persistent protests against this injustice. It was only the old story of the paper's championing the people and vindicating their honest

Yesterday the School Commissioners saw the propriety of opening the gates and gave their consent. There was nothing in the way of argument which this paper has not advanced from the beginning, and their on would have come with better grace months ago. But it has come, and again, in the name of the children, thanks.

### ONE PIGHTEOUS STEP.

Every aut. or in America can feel a certain stiffening of his spinal vertebre over the action of the House of Representatives rday on the International Copyright Bill. It was passed by a vote of 189 to 95.

This is a good step towards the righteousness of humanity. Why the progeny of a was for many years a surgeon in the United State man's brain should not be protected against selfish, mercenary kidnappers is something which only the ninety-five who oppose the passage of the bill can hope to show.

That bumptious colleague of Sirring Bull and a glory of the red-skin contingent, RED CLOUD, is not an Indian at all! He is a sweet little CHARLEY Ross, born of poor but honest whites, from whom he was Heinrich, the violonosilo virtuoso, and will of him was lost until he attained his majority, if Indians may be said ever to at ain to their majority.

Then he was discovered and fully identified. But instead of rapturously embrac ing his birthright as a white citizen, Char-LEY Ross RED CLOUD uttered a stoical "Ugh!" turned his feathered and blanketed back upon his own and hugged more closely to him his adopted Sioux. He has been demoralized with a delightful savagery. What a romance for RED CLOUD!

## THE TREE.

Its branches are extending, and the buds and blossoms of an early and prolific fruitage are already bejowelling the fair Christmas Tree which the good readers of THE EVENING WORLD are preparing for the poor children.

What a grateful monument it will be on Christmas Day, telling of the warm feeling of men and children, and standing as a source of benediction to them while the incense of light-hearted joy rises from the impoverished hearts of the poor boys and girls made happy by its brightness. Think of this and have your share in creating such blessed happiness.

Though the domestic arrangements of the American poet Josquin Miller and his wife ary couples, the poet's views on seclusion might very wisely be taken to heart in most households. "There are times in the life of every one," says he, .. when solitude is an absolute necessity." But how few of us ever realize this truth. That most of us daily intrude upon each other far too much is a tru iem, and though one would by no means de sire young folks to develop a wild-beast-like love of being alone, there is no doubt that they are a great deal too gregarious in their present babits. Parents are too apt to think their toys and girls "strange" sulky" if they exhibit a desire sometimes to dee the tamily circle.
